What to Test

release 2.18.0

"Odyssey Car Park" Would Like to Use Bluetooth
The app uses the Bluetooth to detect and interact with the parkings' peripherals.

Don't Allow   OK

Remember to add your telephone number in case your battery dies!

4.

Optional: Add your credit card to make payments easier. The app will securely hold this information to make for quicker payments.
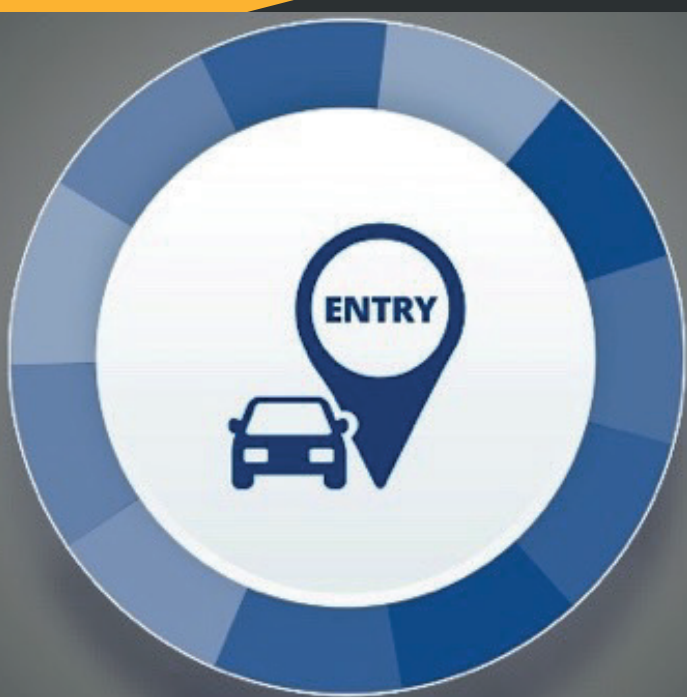

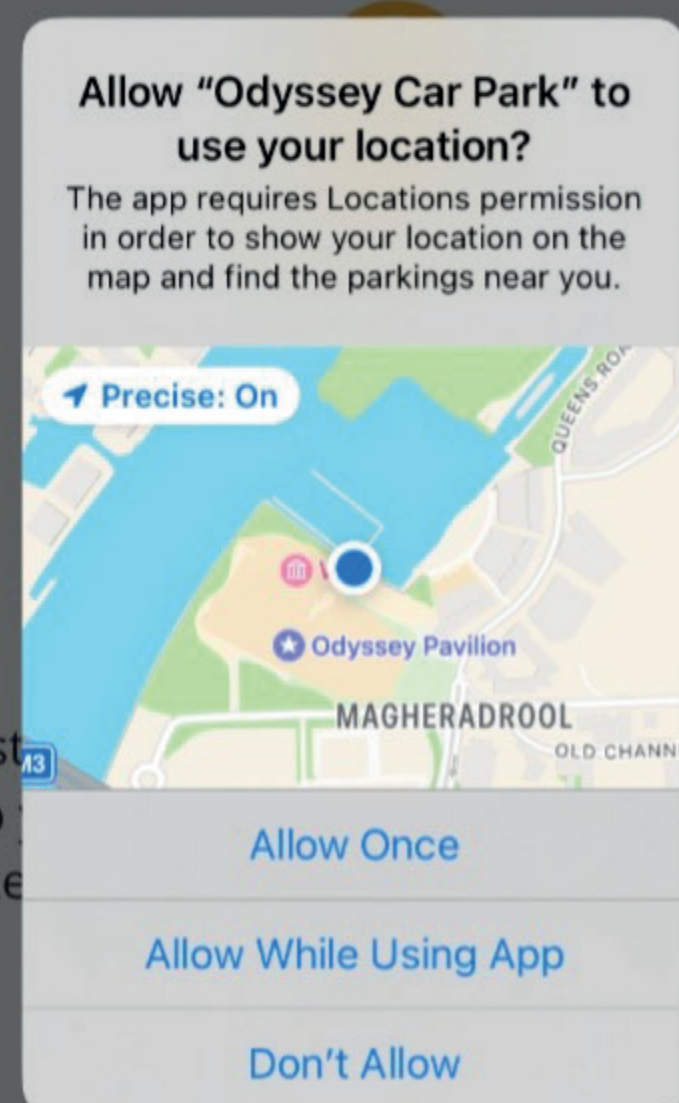

By starting this procedure, you can set up your default credit card. This will make payment for tickets easier.

5.

Enable 'location' on your phone to see the locations of car parks available on the app.

Allow "Odyssey Car Park" to use your location?

The app requires Locations permission in order to show your location on the map and find the parkings near you.

6.

ENTRY
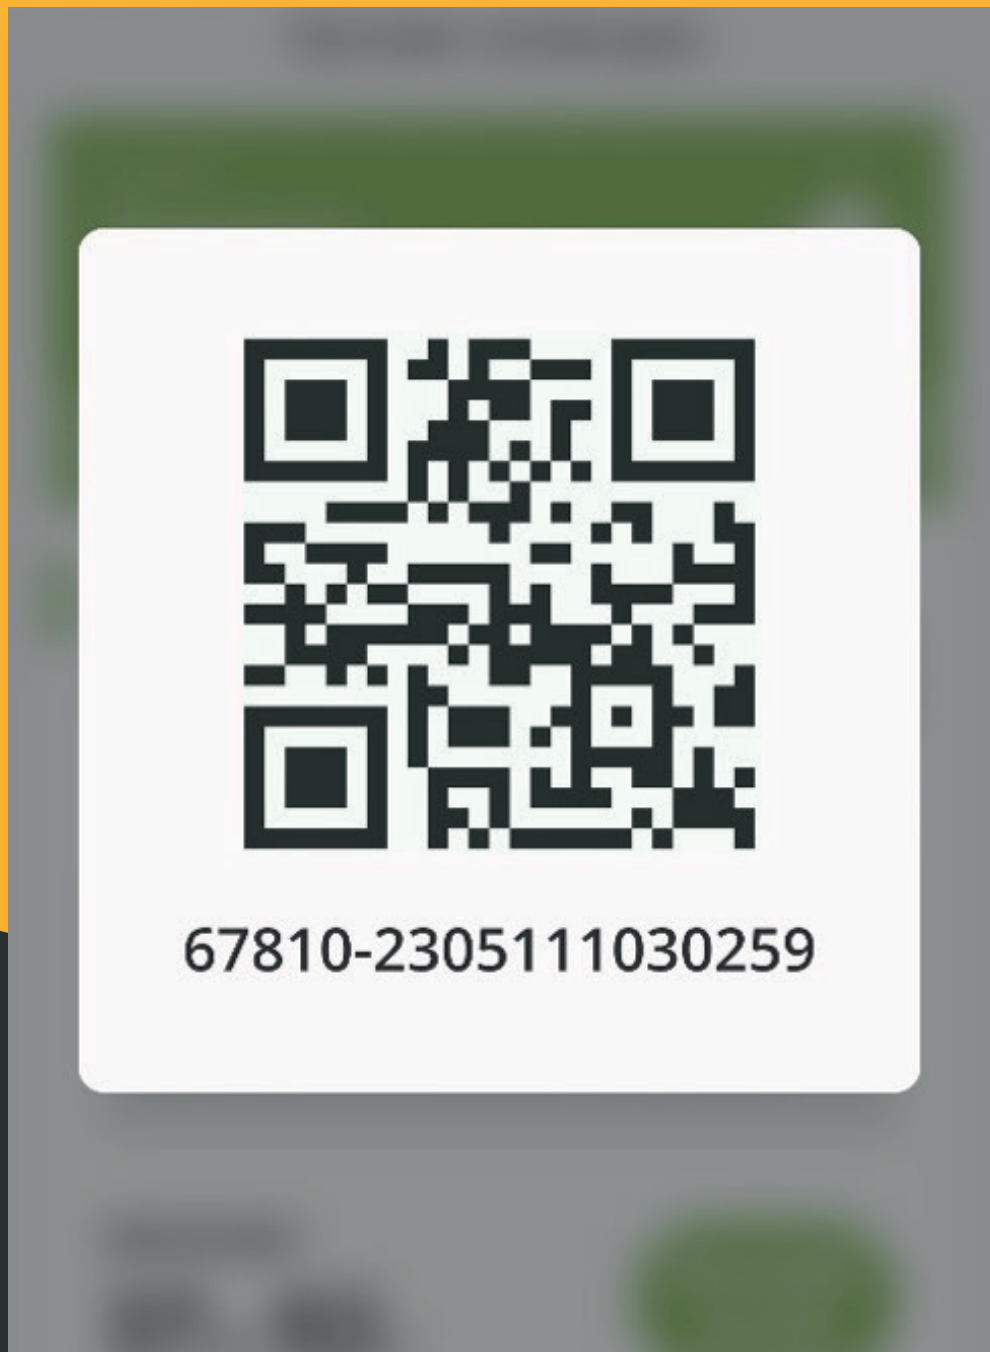

When you are near a parking kiosk, the Park button will become active and you will be able to enter, pay and exit.

Keep the app open, with your Bluetooth turned on upon entry. Once at the car park entry barrier tap or click 'ENTRY.'
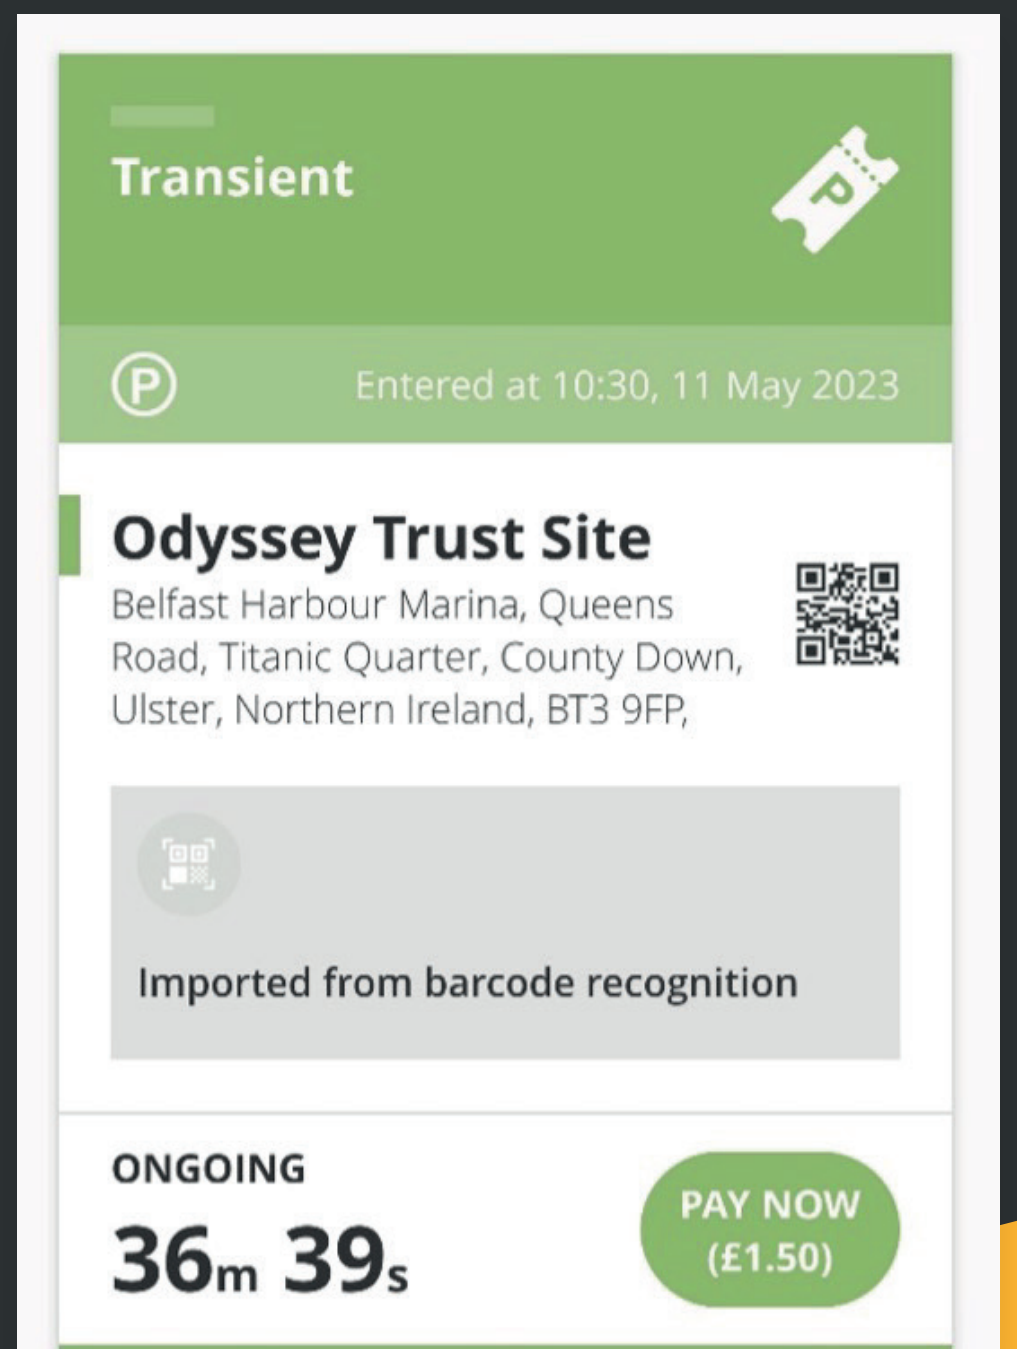

7.

The barrier will open and produce your digital ticket in the app. The QR code is your ticket.

Your parking is now secured for the duration of your stay.
